Discussion took place about the location of the building. There was a suggestion that the rink surface not be entirely closed in so that there would be more use by the public in the summer months. The committee decided that the best spot for this building is in between the office parking lot and the ball field.

Council will need to hire an engineer to design the community centre building. It was hoped that the hiring of an engineering company could be decided before the next council meeting on May 4th, 2009.

Next meeting: To be announced.
