

Intyre Electronic Recycling

Depot for end of life electronics

Electronics improve the way we live, work and play. But, there's one place where electronics should have no impact—the environment. Through responsible use, reuse and recycling of electronics, the consumer electronics industry and consumers can protect and preserve the environment—together.

DID YOU KNOW?

- We are an Ontario Electronic Stewardship (OES) approved collection site. OES is a non-profit corporation established by manufacturers, retailers, and other stakeholders to develop a waste diversion plan for **Waste Electrical and Electronic Equipment (WEEE)** in response to the designation of these materials under the **Waste Diversion Act (WDA)**.
- E-waste (WEEE) is the fastest growing source of waste in North America
- Most e-waste (WEEE) is land-filled, where chemicals such as lead and mercury can leach into the groundwater and soil.
- Only a small portion of e-waste is recycled.
- E-waste (WEEE) does not decompose.
- Although the e-waste (WEEE) stream is smaller than other waste streams, the problem posed is *very real*. Heavy metals as well as plastics and flame-retardants can leach into the ground and contaminate the environment.

HOW YOU CAN HELP

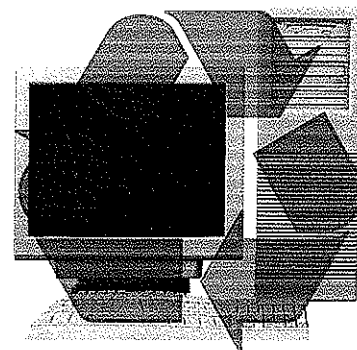

- Bring your electronic E-waste (WEEE) to our depot at **7 East Airport Road, Huntsville** for recycling, our hours are **Monday - Friday 9 a.m. - 5 p.m., Saturday 9 a.m. - 12 noon** - after hours arrangements can be made
- There is **no charge to the consumer**.
- Your E-waste (WEEE) will be broken down and sorted into recyclable components. We do not dismantle, re-sell or refurbish E-waste (WEEE) - it is diverted to recycling depots rather than landfill.

CONTACT US

PHASE I

- Desktop computers
- Portable computers
- Notebook computers
- Laptop computers
- Computer peripherals
 - Keyboards
 - Mice
 - Misc. additional cables
- Monitors
- Televisions
- Printing devices
- Fax machines

PHASE II

Computer peripherals - Modems

- Copiers, scanners, typewriters
- Telephones (physical & accessories)
 - Cordless
 - Land Line
 - Cell
- PDA's & Pagers
- Audio and video players
- Cameras
- Equalizers, (pre)amplifiers
- Radios
- Receivers
- Speakers
- Tuner
- Turntable
- Video players/projectors
- Video recorder
- Personal hand held computers
