

Almaguin Highlands Health Care Centre

November 2019

Ontario Health Teams (OHTs) will provide a new way of organizing and delivering primary health care services in local communities. We are building a connected system to improve the patient and caregiver experience, and strengthen local services. Patients will receive the best care, no matter when and where they need it.

Your input is a valued component of building our Almaguin Highlands Health Team.

Please Note: Only one completed survey per computer (IP address) is permitted.
