### 911 Signs and Snow

---

With all the snow we have had lately it has been suggested that we each have a look and see if our 911 signs are still visible.

The snow banks are high and the signs could be underneath the snow. If there was an emergency at your property it would be difficult for emergency services to find you.

As well a great idea would be to help any elderly people in your neighborhood and have a look for theirs too!

What a great community we live in, where everyone helps everyone else!
