SOUND SYSTEM OPERATING INSTRUCTIONS

1. Remove top lid from the main unit. Put microphone aside along with ipod cords.
2. Make sure all sound adjustment levers (except master control lever) are slid all the way to the bottom (off)
3. Plug in main unit and it is ready to go.
4. 2 levers on the far left control microphones if they are being used and connected.
5. 4 levers on the far right control ipods. You may use two ipods at the same time and alternate between them for a smooth transition from song to song.
6. The master control has been taped up to prevent any damage to the system. Please just leave it alone.
7. Everything is labeled to be user friendly.
8. Never allow the sound system lights to turn red. This indicates that the unit is exceeding its sound parameters and will damage the system.
9. There is no need to touch any of the knobs on the unit for any reason. The system has already been fine-tuned to produce quality sound.
10. To shut the system off after use, please return all levers except the master control lever down to the off position, then unplug from outlet.
11. **THE RENTER IS RESPONSIBLE FOR ANY AND ALL DAMAGE TO THE SOUND SYSTEM.
DO NOT REMOVE FRONT COVER OR YOU WILL BE LIBALE FOR ANY DAMAGES.**
